August 21 2004 ~ Western Chapter Fun Ride at Wayne National Forest. The meeting place and time is yet to be determined. We will be riding the Monday Creek ORV Trails. 70 miles of trails. There are two other sets of trails that make-up the Wayne National Forset System. but they are smaller and in a different area that is not connected to Monday Creek. Some of us may make a few days out of it to try to hit those other ones, but the official ride will be on Sat. Anything else will be a bonus, considering time etc. If you plan on staying a few days there is a motel that is within 5 miles of the trails we plan on riding. The name of it is The Inn Towner Motel. If you wish to make reservations you can call 1-800-254-3371. Reservations should be made before the July 4th because they may fill up fast. If you plan on roughing it or need other accommodations you can call the Nelsonville office at (740) 753-0101 and tell them you will be riding the Monday Creek ATV Trails. You will need a permit to ride and those can be purchased now. Go to <http://www.fs.fed.us/r9/wayne/> For more information call Chris at 716-685-6858 or email nytrorides@aol.com.

Trail Openings

We are being very careful with our trails this spring as it was a very wet winter and trails in general are pretty soft. Soft trails equals destroyed trails if we put too much traffic on them too early. Below is a table of our trails opening during the spring, their corresponding dates open or anticipated opening dates and current trail status. We will continue to update this table and republish it on the website and too this newsletter list frequently.

More trail descriptions added! See our trails page for more information!

Please check the website or 1-800-381-2260 before going out to any trail

CHAPTER NEWS

Trail Riding Tips!

ATV riding isn't very difficult, the first thing it requires is common sense. Our first recommendation is not ride terrain beyond your ability. If you come upon a trail riding area or situation where you're not sure of how to handle the ATV or what you would do in a worst case scenario, *don't do it!* Take a minute and think of: Is my ability up to it? What will happen if I do have to bail? Are you by yourself? How far away is help? **Go ahead only after you're satisfied that you can deal with the consequences of your actions.** Learning how to recover after a technical error, or knowing when to bail is a fine line. For young or inexperienced riders, it's best to ride with seasoned riders who have also had to learn how to ride and can share their expertise. Another requirement is a respect for the environment. Don't do anything that will harm the environment. Combine these principles with a few easily learned riding techniques, and you've got the makings of a perfect ATVing adventure.

Crossing Obstacles:

Often you'll have more success climbing over obstacles by approaching them straight on. This holds true for downed trees as well as some stairstep hill climbing. With 4X4 ATV's, approach very slowly, and once the wheels are touching, give enough throttle to slowly crawl over the obstacle. (Not too much throttle, or you may end up doing an out of control wheelie) When your front wheels pass over the obstacle, keep the momentum going so your rear tires will make it also. Or you may end up sitting on your skid plate, not being able to move forward or backward. Also be aware of what your ATV's ground clearance is, as well as your own capabilities.

· Don't traverse a hill:

Always climb straight up or straight down a hill. Never try to climb at an angle. And do not try to traverse a hill. Your ATV's weight and the spinning wheels can cause you to slide further sideways than you intended. Depending on the steepness of the slope, sliding sideways can cause an ATV to start rolling.

· Don't Spin Your Tires:

Don't spin your tires in mud sand or soft soils. If you sense that your tires are just spinning, and you're no longer making forward progress, stop immediately! Spinning your tires will only dig you down deeper, And if you get buried down to the frame, it will be *much* harder to free your ATV. If you sense that you are beginning to lose traction, turn your wheels from side to side in a 4X4. Sometimes this will give you a better bite.

Some situations are simple to get into, and easy to get out of, but others can be a test of nerves, stamina and vocabulary. The quickest way to get unstuck is to think your problem through, planning each step you need to take. Planning ahead will save wear on yourself and your ATV!

· Stream Crossing:

Cross streams as slowly as possible, creating the least amount of disturbance. Do not cross at speeds that will create "rooster-tails" of water. Always determine the depth prior to crossing, and know how high your ATV's air intake snorkel is, and never drive up or down a stream. Driving up or down a stream needlessly stirs up dirt and silt, and disturbs the streams' ecology. Cross either at a 90 degree angle to the direction of the stream, or head slightly upstream.

· Turning around:

NEVER attempt to turn around on a steep narrow trail. If the terrain is unstable and your ATV gets sideways, there's a dangerous possibility that it could start rolling. If you fail to climb the hill, grab your brakes very hard immediately. If possible, put it in reverse, and let the engine compression and *front* brakes slow you while you back straight back down the hill.

WARNING: This is one of the most dangerous situations you can get yourself in. If at all possible check the climb very closely before hand, by getting off your machine and walking ahead.

· Don't follow closely:

When riding difficult terrain, don't follow the ATV in front of you too closely. If the terrain is challenging, the ATV in front of you may need to stop and back up. Sometimes the vehicle in front of you may even slide backward.

· Know what's ahead:

If at all possible, know what to expect from the trail you're riding on, and how difficult it is prior to you getting there. If you're not sure of the trail conditions, be prepared for the worst. Tow ropes, winches, come-alongs, etc.

· Leaders:

Have the more experienced riders lead, and watch how he or she handles some of the tricky situations.--

Leaders: Until they start installing brake lights on quads, raise your left hand to allow riders behind you to know of unexpected terrain changes or obstacles in the trail. Get to know your ATV! Know your ground clearance and exactly where tire placement is. The ATV coming up the hill has the right of way. If it's a steep long climb, pull off to the side, and let him pass you before proceeding. Stopping on a long uphill can cause you to lose traction and control. When riding up long steep hills, keep your momentum going.· If you unexpectedly turn a corner or crest a hill, and there's another ATV (or anything) coming straight at you, make a quick turn to the right while slowing down. Hopefully your counterpart will do the same. When coming up on someone on horseback, pull off to the side, stop your engine, and take off your helmet. A horse doesn't recognize you as a human, when wearing a helmet, as a result the horse may be frightened by this weird "animal". Let others enjoy the outdoors in peace. Don't play loud music. Maybe you like vintage Zeppelin blasted at top volume, but that's not what others come to nature to experience.

· Always offer assistance to somebody in need of it. And always be prepared for medical emergencies with a good First Aid Kit, and Ace bandage for wrapping compound fractures. · Never blaze your own trail. Pick up any litter you find, even if it's not yours! · Restrict your drinking alcoholic beverages until after the riding is over.

Meeting Notes for March 23, 2004

20 members present at this meeting.

The meeting opened with the Treasurer's report. He went over the past month's transactions and stated we have 5 renewal memberships (4 singles & 1 family).

Membership renewal forms have been mailed out.

Chemung County Fair Drag Races: a committee chairperson is still needed to head up the event. Anyone interested may contact Gary or Pam Burns.

NYS Budget Proposal Update: Pam presented NYSORVA's position statement in this matter. She reiterated that the DMV of NY has mailed out letters stating there is a registration/renewal freeze until August '04. Lastly she presented letters created for every member on our database to sign, put in a handwritten envelope, and send to the appropriate state officials. These letters are to petition for changes to the proposed budget. Pam put a lot of work into this to make it easy for us. Please do your part.

Trailpass Update: As stated last month, Trailpass now offers discounts to club members: a single pass for \$25.00 which is good for one year and expires each April. The family pass is \$50.00 and is available for purchase from 12/1 – 4/30 each year. The new info is in order to receive this discount, you must go through our website and enter an access code, which can be obtained from a Board member or call Trailpass at their 800 number.

UPCOMING MEETINGS: Just a reminder that some of our club meetings will be held at the Chemung property this summer. These meetings will include picnics (cookout, bonfire, and camping overnight if you so desire) and RIDES! The tentative schedule will be: meeting at 10am, ride awhile, eat, then ride again.

- 1). Saturday, May 15th
- 2). Sunday, June 27th
- 3). Saturday, August 14th
- 4). Sunday, September 12th

In coordination with Trailpass, NYTRO has scheduled 3 poker runs at the Chemung property:

- 1). July 3 & 4 (NYTRO & Trailpass)
- 2). August 14 (NYTRO & Trailpass)
- 3). September 18 (Public)

As indicated above, the first 2 poker runs are for NYTRO & Trailpass members only. The one in September is open to the public. The poker run over July 4th weekend will include a chicken BBQ, sleepover, and breakfast in the morning.

The cost is set at \$15/day or \$25 for the weekend. Poker Run in the town of North Chemung: Don from CJ's Motor Sports & Eugene Parker would like help in setting up a poker run in memory of Eugene's brother, Steve Parker. At present the date is set for July 31st. More information to follow.

The meeting's 50-50 raffle was won by Dave Connor who graciously donated it back to the club. Thanks Dave! Also, Stacey Hubbard, Dan Layton, Gary Burns, Jamie Madden, and again Dave Connor (who again gave it back) all won mini tire gages.

OPEN DISCUSSION: Gary presented the website statistics of 850,000 hits, 45,000 visits which include 1200 unique visits per month. Patrick read the thank you card from Mike Harris. The donation we made in memory of his wife, Sara, will be used to purchase a cement bench for in the cemetery. Dave Connor presented the information for an ATV trip to the Glamis Sand Dunes in California. Dave Heifferon mentioned a contact for a farm in Erwin that contains 1800 acres and has neighboring property of 600 acres.
